Dear Tina:

Thank you for your response to the March 7th letter submitted by the ACC Formaldehyde Panel. For transparency, of the 22 references noted in our letter, would you please identify which references the EPA has classified as "having primary data or analyses that have been considered in developing the current assessment?"

Kind Regards,

Kimberly Wise White, Ph.D. | American Chemistry Council

Dear Dr. White,

I wanted to let you know that I have received your letter and will be responding to it more formally soon after some discussion with my staff. I have also copied Dr. Beck who had expressed some interest in a more coordinated engagement strategy between ACC and EPA. Also, in the future, to make sure these types of correspondence receive appropriate attention, please be sure to copy Ms. Leslie Meadows on my team whom you know, as well as Dr. Lou D'Amico who directs communications and regulatory support for NCEA.

Thanks,

Tina Bahadori, Sc.D.
